

ALL-TERRAIN NATURE COLLECTOR

ACTIVITY GUIDE
WITH INSTRUCTIONS

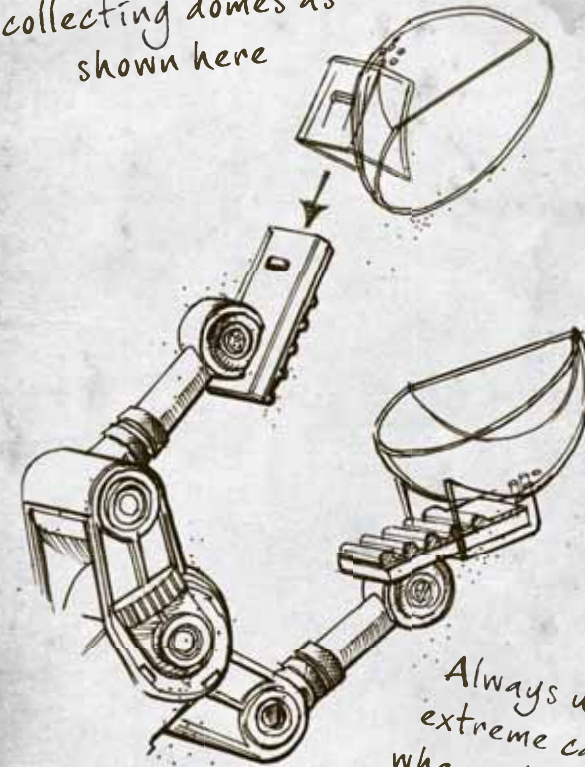

My Fellow Explorers,

Your All-Terrain Nature Collector will help you to collect and observe specimens of all types when exploring the great outdoors.

The collector grips are perfect for picking up inanimate objects.

Critter-collecting domes help you examine insects on land, and the pond net allows you to study water creatures, too!

Attach the critter collecting domes as shown here

Always use extreme care when collecting and observing live creatures!

Start exploring with the activities described below, or use your imagination to think of your very own games and adventures!

EXPLORE AND COLLECT

Assign point values to whatever you're on the lookout for. Then head out with friends and your All-Terrain Nature Collector to see what you can find and collect. The player with the highest point total wins!

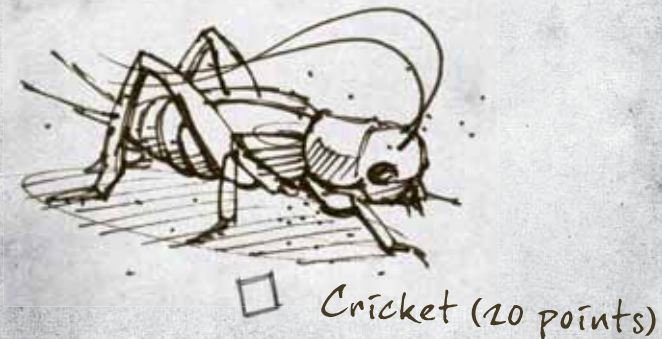

LITTER WARRIOR

Grab litter with your Nature Collector, trash it, and help keep our planet clean and green!

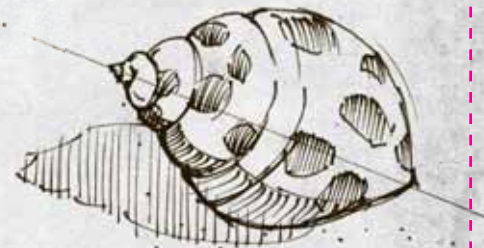

BUG QUEST

Ladybugs, crickets, and pill bugs galore—the more you find, the more you score!

TREASURES BY THE SEA

Search the shoreline for colorful shells, shiny stones, and more. What will be your ultimate find?

National Geographic's net proceeds support vital exploration, conservation, research, and education programs.
